

An aerial photograph of a large, modern, white industrial-style building with a flat roof, identified as the Lebanon Campus EDS Program. The building is surrounded by a large, paved parking lot with many spaces. To the left of the building, there is a construction site with several wooden rebar structures. In the foreground, a multi-lane highway is visible, with labels for 'INTERSTATE 44' and 'HIGHWAY M'. The surrounding area is green with some trees and utility poles.
