

Background Check

In the course of changes in healthcare, it has become necessary to have criminal background checks performed on all currently enrolled students in Allied Health programs. This is necessary because of our affiliations with numerous clinical education sites.

All applicants accepted into an Allied Health program will have a criminal background check performed. This will be done through a contracted agency. At the present time, if the program you are planning to enter requires licensure or certification by a national or state organization, it will be the decision of that agency as to your qualifications to apply for licensure or certification. Your acceptance into an OTC Allied Health program or the completion of the program does not guarantee the eligibility to apply for licensure or certification.

Students with a felony or a significant criminal history may not be able to participate in clinical experiences at some of our sites and may not be able to apply for a license to practice.
