

OZARKS TECHNICAL COMMUNITY COLLEGE

OCCUPATIONAL THERAPY ASSISTANT PROGRAM

FW 1.5 Student Roles and Responsibilities

FW 1.5.1 Program Completion Policy

Full-time Program (4 semesters)

All OTA students will be admitted into the program as full-time students. Full-time OTA students must complete the didactic, laboratory, and Level I fieldwork components of the OTA Program in 3 semesters fall and spring, after pre-requisite courses have been completed. Once the first 3 semesters have been successfully completed, students have the option to delay their Level II clinical experiences. All Level II clinical experiences must be completed within 18 months of the Fall II semester.

There are times when an OTA student experiences a personal extenuating circumstance which necessitates a reduction in fieldwork hours. Students may make this request for level II ONLY. Students must submit request for reduction in fieldwork hours form as soon as possible. Please refer to the policy forms tab to review form.

Note: All students must complete their program of study (graduate) within 4 years of initial acceptance.
