In your "Search Windows" field along your taskbar at the bottom of your screen – type "software center"

	Search Windows		[]]	ø	<u>R</u>	x∄	
Open th	is program						
S 🕼	oftware Center						
In the se	earch bar at the top righ	t of this screen type "class monitor	.11				

Available Software	Installation Status	Installed Software	Options		
SHOW All	▼ Show optic	onal software		SEARCH	P

Check the box next to the Class Monitor Program

\checkmark	🚰 Class Monitor 2.00.4	Application	OTC	3/8/2018	Available
	@ // A AAA	A	17 B	E IOC IOCA C	

Click on "Install Selected" at the bottom right of the screen

Once the program is installed – you can access it using the same "search windows" tool as above

Once you find the program shortcut you can "right click" on the icon and save it to your desktop or taskbar
